PERFECTING OUR CRAFT FOR FIVE GENERATIONS

Family owned for over 180 years, WOLF's English roots are steeped in history and tradition. The forefathers coming from Sweden and Germany have passed down skills from generation to generation. Over the last 15 years the brand has gained worldwide recognition and can now be found in over 70 countries. People around the world appreciate that WOLF takes care of the precious things in your life beautifully.

1834 THE BEGINNING

German silversmith Philipp Wolf I created the company in 1834, when he discovered that his silver pieces sold more when presented in beautiful boxes. As he began selling more boxes than silver, he refocused his designs creating sophisticated jewelry cases, which not only looked good but protected meaningful treasures.

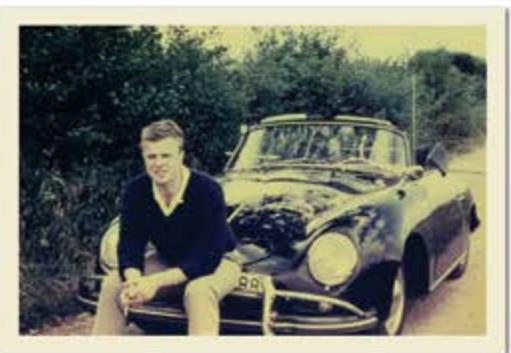

1895 THE APPRENTICE

Son, Philipp Wolf II, had been working as his father's apprentice. An enjoyable summer in southern Sweden convinced him to immigrate to Malmö. There he started his own workshop and soon earned the respect and recognition within the area for his craft. As time passed, his sons, Ernst and Philipp III, proudly continued the tradition of box making.

1930 PHILIPP WOLF III

Philipp Wolf III continued to expand the Swedish factory into its third generation of box making. After the Second World War, he embarked on long trips to America to sell his presentation boxes to newly emerging watch and jewelry markets. Progress was slow, but steady, the trips to America by sea taking up to a month each time.

1962 PHILIP WOLF IV

Philip Wolf IV, the first of three sons born to Philipp III, emigrated to England to start a new factory. Over time, his highly automated factory employed over 300 people; was recognized as the largest manufacturer of jewelry boxes and display materials for all of Great Britain and much of Europe.

1988 SIMON PHILIP WOLF V

With the economy and business flourishing in England, the time was right for the Wolf family to assume the biggest challenge ever undertaken: tackling the USA and Canadian markets. It was up to Simon Philip Wolf V, with guidance from his father Philip IV, to persevere.

PRESENT DAY CELEBRATING OVER 180 YEARS

Today the Wolf family legacy proudly continues, stronger than ever and into its fifth generation. The company works tirelessly to design the best watch winders, watch boxes and jewelry cases. Their patented technology and innovative product design in jewelry cases and watch rotators has made the company what it is today—the market leader.
